

NOTICE TO RESIDENTS

Barberry Street Relief Sewer Project

September 10, 2026

The City of Southgate awarded a construction contract to Dan's Excavating, Inc. (Contractor) of Shelby Township, Michigan, on March 4, 2026, to construct a relief sewer in Barberry Street from Eureka Road to Brest Street. As part of this sewer project, the Contractor will continue to store sewer pipe and materials this week and next week, along Barberry Street, from Walnut Street to Northline Road, between the sidewalks and the street curbs.

Traffic Control and Detours

There will be no street closures for the sewer pipe and materials storage work. However, during the off-loading of sewer pipes and materials from the trucks during construction hours, there will be intermittent interruptions to traffic on Barberry Street and the cross streets. We kindly ask you not to park on Barberry Street during the off-loading operations. The Southgate Department of Public Safety is aware of this construction, and precautions will be taken for safety protection of this street.

Parking

Parking restrictions on adjacent side streets will not be enforced during construction, except for parking in front of fire hydrants or too close to intersections. These infractions will still be enforced. There will be no parking allowed on Barberry Street from Walnut Street to Northline Road. The Southgate Department of Public Safety is aware of this construction, and precautions will be taken for safety protection of this street.

Working Hours

Working hours will typically be from 7:00 a.m. to 7:00 p.m., Monday through Friday, with occasional work taking place on Saturdays. The Contractor will not work on holidays or holiday weekends.

Future resident notices will be provided during construction to keep you informed. When construction begins, if you have any questions or concerns, the best source of information is to locate the full-time, on-site construction inspector from Hennessey Engineers. You can also contact John Miller or Nick Yuvan at Hennessey Engineers, the City of Southgate's engineering consultant, at (734) 759-1600.

Thank you in advance for your understanding and cooperation with this project. We apologize in advance for any temporary inconvenience this work will cause, but we trust that you will gain the benefits of this project once it is completed.

Sincerely,

John M. Miller
Project / Construction Manager
