NOTICE TO BUSINESSES

Barberry Street Relief Sewer Project

October 16, 2026

The City of Southgate awarded a construction contract to Dan's Excavating, Inc. (Contractor) of Shelby Township, Michigan, on March 4, 2026, to construct a relief sewer in Barberry Street from Eureka Road to Brest Street. As part of this sewer project, the Contractor will begin on **Tuesday, October 20, 2026**, sawcutting and removing the Barberry Street pavement on the north and south side of Eureka Road. Work will also include manhole structure adjustments, and grading and base preparation for paving. Once a schedule has been determined to pave this portion of Barberry Street, another notice will be delivered to you.

Traffic Control and Detours

Barberry Street is closed to traffic from South Eureka Alley to Sycamore Street. Barricades will remain in place near this work to allow the Contractor to perform the sawcutting and pavement removal operations, and grading and base preparation. The Southgate Department of Public Safety is aware of the construction and precautions are being taken to continue proper safety protection of the streets.

Parking

Parking restrictions on adjacent side streets will not be enforced during construction, except for parking in front of fire hydrants. **Please do not park on Barberry Street, between South Eureka Alley and Sycamore Street. The Contractor will need room in this area to perform the described operations.**

Working Hours

Working hours will typically be from 7:00 a.m. to 7:00 p.m., Monday through Friday. Work on Saturdays will typically be from 7:00 a.m. to 3:00 p.m. The Contractor will not work on holidays or holiday weekends.

Future notices will be provided during construction to keep you informed. When construction begins, if you have any questions or concerns, the best source of information is to locate the full-time, on-site construction inspector from Hennessey Engineers. You can also contact John Miller or Nick Yuvan at Hennessey Engineers, the City of Southgate's engineering consultant, at (734) 759-1600.

Thank you in advance for your understanding and cooperation with this project. We apologize in advance for any temporary inconvenience this work will cause, but we trust that you will gain the benefits of this project once it is completed.

Sincerely,

John M. Miller
Project / Construction Manager
Hennessey Engineers, Inc.
