NOTICE TO RESIDENTS
Barberry Street Relief Sewer Project
November 3, 2026

The City of Southgate awarded a construction contract to Dan's Excavating, Inc. (Contractor) of Shelby Township, Michigan, on March 4, 2026, to construct a relief sewer in Barberry Street from Eureka Road to Brest Street. As part of this sewer project, the Contractor has begun storing sewer pipe and materials today, along Barberry Street, from Northline Road to Edison Street, between the sidewalks and the street curbs. The Contractor will begin sewer construction next Monday or Tuesday, working northward from Northline Road to Brest Street.

Traffic Control and Detours

Callender Street is closed to east and west through traffic at Barberry Street for the delivery and storage of sewer pipes and materials. Barberry Street will be closed to all traffic from Northline Road to Edison Street. The Contractor's trucks will be entering the east/west side streets from Fort Street and exiting the work site through the ease/west side streets to Fort Street. We kindly ask you not to park on Barberry Street during the off-loading operations, or on Callender and Edison Streets, between Barberry Street and Fort Street. The Southgate Department of Public Safety is aware of this construction, and precautions will be taken for safety protection of this street.

Parking

Parking restrictions on adjacent side streets will not be enforced during construction, except for parking in front of fire hydrants or too close to intersections. These infractions will still be enforced. There will be no parking allowed on Barberry Street from Northline Road to Edison Street. We kindly ask that you do not park on Callender and Edison Streets between Barberry Street and Fort Street. The Southgate Department of Public Safety is aware of this construction, and precautions will be taken for safety protection of this street.

Working Hours

Working hours will typically be from 7:00 a.m. to 7:00 p.m., Monday through Friday, with occasional work taking place on Saturdays. The Contractor will not work on holidays or holiday weekends.

Future resident notices will be provided during construction to keep you informed. When construction begins, if you have any questions or concerns, the best source of information is to locate the full-time, on-site construction inspector from Hennessey Engineers. You can also contact John Miller or Nick Yuvan at Hennessey Engineers, the City of Southgate's engineering consultant, at (734) 759-1600.

Thank you in advance for your understanding and cooperation with this project. We apologize in advance for any temporary inconvenience this work will cause, but we trust that you will gain the benefits of this project once it is completed.

Sincerely,

John M. Miller
Project / Construction Manager
